#### Very Hard.

Since the incarceration of the attorney-general of Virginia and other State officers by Judge Bond, of the United States Circuit Court, for contempt, and the impetus given to the Democratic canvass by that action, there has been acthing striking in the political campaign in this State. That, bowever, was sufficient to give the Democrats every advantage in the State fight with Mahone. Such an encroachment on the rights of the Herald.

In Osborn vs. The United States Bank this greatest of the Chief Justices said: "If the person who is the real principal, the person who is the true source of the mischief, by whose nower and for whose advantage it is lone, be himself above the law, be exempt from judicial process, it would be subversive of the best established principles to say that the law could the suit." 9 Wheaton, 738.

We cannot believe that the people, when they adopted the eleventh amendment, intended to throw down the gap to public repudiation; we cannot believe that the principles of liberty or the right of local self-government are endangered by a denial of such a power to the States. DEATH

Is Something None of s Like to Think of,

Yet we know not when disease and its avages will attack us. We neglect the small things in life to grasp larger ones We neglect our health, which is the most mportant factor to our comfort and happiless, and when it is gone what pl asure is eft us? We feel badly, languid sleepy, the morning." Morning comes, but the germs of disease have heen planted; they readily take root and grow in the broken down constitution. In place of feeling petter we feel more depressed and more badly than we did the previous day. Pro-crastination is the thief of time; it is also the thief of health, for by procrastination we allow our systems to become thoroughly poisoned with disease, and once thoronghly charged with malaria or the germs interest after maturity at ten per cent. of fever it is no easy job to rid ourselves per annum, evidenced by notes bearof them. it is an established fact and beyond dispute though that if we keep the liver healthy and in good order it is impossible for disease to take hold on our

system.

If you prefer a pill, try Dr. Gilder's Liver Pills; or if a liquid preparation, Hill's Hepatic Panacea. They both remove the excessive bild from the system, one up the stomach to healthy action, ouild up the broken down constitution, and if taken according to direction, it is impossible for disease to take hold on us. HOW DO WE DIE OUR GRAVES?

This we all know. But do we all

know that we die by eating? It is

said we dig our graves with our

teeth. How foolish this sounds.

Yet it is fearfully true. We are tor-

rified at the approach of the cholera

and yellow fever, yet there is a dis

ease constantly at our doors and

our houses far more dangerous at

destructive. Most people have

their own stomachs a poison, me

slow, but quite as fatal as the gent

of those maladies which sweep

into eternity by thousands wit

warning in the times of great

demics. But it is a mercy that

we are threatened. The follow

do not always necessarily appear

the same order, nor are they alw

the same in different cases. The

is a dull and sleepy feeling; a la

taste in the mouth, especially in the

morning; the appetite is change

able, sometimes poor and again it

seems as though the patient could

not eat enough, and occasionally no

appetite at all; duliness and slug-

gishness of the mind; no ambit

to study or work: more or less head

ache and heaviness in the head;

dizziness on rising to the feet or

moving suddenly; furred and coat-

ed tongue; a sense of a load on the

stomach that nothing removes; hot

and dry skin at times; vellow tinge

in the eyes; scenty and high-colored

urine; sour taste in the mouth, fre-

quently attended by palpitation of

the heart; impaired vision, with spots that seem to be swimming in

the air before the eyes; a cough

with a greenish-colored expecto-

ration; poor nights' rest; a sticky

slime about the teeth and gums;

hands and feet cold and clammy; irritable temper and bowels bound

up and costive. This disease has

puzzled the physicians and still puz-

zles them. It is the commonest of

ailments and yet the most compli-

cated and mysterious. Sometimes

it is treated as consumption, some-

times as liver complaint, and then

again as malaria and even heart dis-

case. But its real nature is that of

constipation and dyspepsia. It arises

in the digestive organs and soon

affects all the others through the

corrupted and poisoned blood. Often the whole body—including

the nervous system-is literally

starved, even when there is no

emaciation to tell the sad story.

Experience has shown that there is

put one remedy that can certainly

cure this disease in all its stages.
